

Major Project Status Policy Framework - Attachment A

Information to be submitted in support of an application for Major Project Status

1. Proposal information

1.1. Title {what is the project to be called}

1.2. Proponent Details

Company details {Business Registration Number; Business Name; Registered Street Address and Mailing Address}

Contact Person – Position – Contact details

Previous Experience in Delivering Similar Projects

Financial Capacity/Capability {ASX announcements; Annual Reports; financial summaries etc., if relevant}

1.3. Description of Proposal

1.3.1 Project Scope {what activity is to be undertaken}

1.3.2 Infrastructure and Service Requirements – {type; quantity}

1.3.3 Project Costs {capital and operational and degree of certainty}

1.3.4 Workforce {construction and operations numbers}

1.3.5 Outputs – {type; quantity}

1.3.6 Project timeframes {include all phases of the project such as development. Construction, operations and where relevant decommissioning. The timelines should flag key milestones or decision points}

1.4. Outline whether the proposal will include any new/innovative technology etc. that is to be used in the project and whether this is the proponent's intellectual property or a 3rd party provider.

1.5. Utilities and Service requirements {Quantity/Specification}

1.5.1 Water {Source e.g. town water; aquifer, surface water; Volume required; has source been identified and availability confirmed}

1.5.2 Power {requirement also indicate provider e.g. self, or 3rd party provider}

1.5.3 Other {e.g. energy source e.g. gas or diesel; communication infrastructure - include projected demand, availability, source/provider where identified and whether discussions have commenced with providers etc.}

1.6. Infrastructure {How inputs/outputs to be brought to site – who is to provide – if new specify notional distance, include map}

- 1.7. Project Status {at what stage of project development is the project Concept development/Pre-FEED/ FEED/ FID/Construction; what approvals have been identified as being required and indicate which have been acquired to date}
- 1.8. Alignment with Major Project definition – {Statement regarding how the project aligns with the Territory’s definition of a major project}.
- 1.9. Motivation for applying for Major Project Status – {Reasons for seeking Major Project Status including perceived benefits}

2. Location details

- 2.1. Site Location {the geographic location of the project including map}
- 2.2. Current Tenure and Ownership {what is the underlying tenure e.g. pastoral lease, crown lease, freehold – identify lot number, ownership and where land is owned by a third party whether negotiations have commenced to provide required tenure}
 - 2.2.1 Identify other interests in land e.g. mining or petroleum tenure
 - 2.2.2 for mining or petroleum project current mining/petroleum tenure and whether you have or need to apply for a mining lease/production license}
- 2.3. Land Zoning {Current zoning and whether land is suitably zoned for the proposed activity}
- 2.4. Native Title/Aboriginal Land Rights (Northern Territory) Act {Identify whether the land may be subject to Native Title Interests or is on land subject to the *Aboriginal Land Rights (Northern Territory) Act*. Has process commenced to secure an appropriate agreement?}
- 2.5. Other – tenure required {Does the proponent need a different form of tenure e.g. currently pastoral land and requires a higher form of tenure to satisfy finance requirements}

3. Approvals required for the project

{Considering the nature of the development and its location, what approvals, authorisations, permits have been identified as being required}

4. Potential impacts/issues

- 4.1. Environment {Are there any identified areas of environmental sensitivity at this time, or rare/endangered/listed species known in location; nature of emissions/releases to environment and likely quantity – Note this is not dependent upon the proponent having started their environmental assessment process, it is seeking to identify what is already known.}
- 4.2. Community and social {what communities may be affected by the project and how e.g. traffic, noise, cultural issues, what are the potential social impacts in both the development and operating phases.}
- 4.3. Economic Impact of Project {for example capital expenditure (\$m (gross)); operational expenditure (\$m/annum); employment – construction, operations, direct and indirect; any assessment of proportion that may be captured in region/NT.}
- 4.4. Local industry and workforce {Outline expected local industry employment and workforce development implications of the project in both the development and operating phases}
- 4.5. Other

5. Request of government

{Where the proponent has identified a request/requirement of Government please detail}

6. Consultation to date

{Has there been public engagement on this project; what consultation has been held across Government}

{Has the proponent approached the Commonwealth Government and sought Major Project Facilitation, under the Commonwealth Process}

7. Next steps and key project risks

The Proponent is to outline

5.1 The proposed activities over the next 6 months

5.2 The primary risks that influence project development
